SUMMARY

High-achieving Data Science student (GPA: 4.00/4.00) with hands-on experience in full-stack ML development and data analytics. Expert in consolidating complex datasets and building interactive decision-support tools. Currently tutoring SQL, Python data science, and visualization at BYU-Idaho.

TECHNICAL SKILLS

Languages & Tools: Python, R, SQL, Git, FastAPI, Pandas, NumPy, Scikit-learn, React

Visualization: Tableau, Plotly, Streamlit, Databricks, Snowflake, Google Sheets

Concepts: Machine Learning, Statistical Modeling, Data Wrangling, ETL, API Design, Product Thinking

EXPERIENCE

Data Science Tutor — BYU-Idaho

Jan 2026 – Present

- Support students with Python workflows (Pandas, Scikit-learn) for data wrangling and ML prediction.
- Guide students through statistical inference and data storytelling using Tableau and real-world datasets.
- Assist in relational database design and complex SQL queries on datasets exceeding 54M+ rows.

Data Analyst — BYU-Idaho, Heber J. Grant Program

Jan 2026 – Apr 2026

- Built a unified analytics dataset consolidating 13+ sources to evaluate program outcomes.
- Analyzed engagement data and delivered recommendations that improved mentor-mentee pairing efficiency.

PROJECTS

CareerShield AI | Python, FastAPI, React, Scikit-learn, Claude API

- Full-stack ML platform predicting AI automation risk for 500+ careers using ensemble models ($R^2 = 0.947$).
- Developed interactive career profiles and an AI career assistant to move users from risk assessment to skill building.
- Managed end-to-end product lifecycle including data ingestion, model training, and API design.

TB Global Analysis | Python, Pandas, Streamlit

- Processed 40,000+ public health records to build a dashboard for tracking longitudinal disease trends.

Sales Database Analytics Dashboard | SQL, Tableau

- Executed complex SQL on 10,000+ rows to reveal seasonal trends for strategic inventory planning.

EDUCATION

Brigham Young University-Idaho — B.S. in Data Science (GPA: 4.00/4.00)

Winter 2027

Relevant Coursework: Data Science Programming, SQL, Machine Learning, Data Warehousing

Salt Lake Community College — A.A.S. in Computer Science, Cert. in Software Dev.

May 2025

ADDITIONAL

Languages: English (Fluent), French (Fluent), Haitian Creole (Native)
